

## **A Happy Place**

*I know some will shame us,*

*I know some will hate us.*

*But a young person is strong and brave,*

*To get their voice out of the cave.*

*Millions of young people suffer every year,*

*The reason being climate change fear.*

*We try to act and lessen the threat,*

*But there's always some people who doesn't want to hear.*

*I'm a young person who just wants to smile,*

*In a happy place filled with fresh air and butterflies.*

*I hope one day we all can join*

*Hand in hand to save this land...*
